

Russia Snow Sheep

The 2019 Snow Sheep Hunting Opportunities will take place in the Magadan Region of Russia. With approximately 2,500,000 acres available to hunt in the region - with Six Base camp located in remote mountain areas abundant with wildlife and trophy game.

To provide for each client's comfort all camps are well equipped and have essential means of communication - including satellite phones, radio transmitters, walkie talkies and signaling devices. Each Hunt has a personal guide who takes full care of his client. The guide's responsibilities include: reconnaissance, assistance in taking a trophy, carrying a backpack, cooking meals at spike camp, field trophy preparation and packing. All of our guides are professional hunters and trappers, are well trained in all hunting and camping operations at a level comparable with American standards. They are friendly and sensitive to special needs of the foreign hunters and are knowledgeable in the regulations and requirements of international trophy hunting.

Current flight schedule to reach Magadan is via Moscow or Seoul, assistance at the Moscow airport is provided during arrival and departure.

All hunting begins and ends at the Magadan Airport. Clients are met on arrival and taken directly by helicopter to the base camp. Travel to each spike camp is also done by helicopter and depending on the number of species hunted, moving from spike camp to spike camp may also be done by helicopter. Duration of hunt is normally 13 days including travel to and from base camp - however the more species desired, the longer the hunt will be scheduled.

At the end of the hunt - clients often enjoy a nice in Magadan prior to embarking on their return flight home.
